

Service Invoice
Wide Invoice
AR Statements

Print W2s on blank paper (except for government required red copy)

Print forms for unlimited number of companies.

Print Multi-part forms with 8 different titles (Original, Customer Copy etc.). Each part may be drawn from an assigned laser printer paper tray.

Define a Packing list blackout for invoices.

Security

Design an unlimited number of security schemes with flexibility offered by no other product.

99 million levels of security. A user ID and Password is required to access any checking account, plus you may also assign an additional password to EACH checking account. Additionally you may also password protect each individual signature on the check.

Assign a security range for each checking account.

Example: Account has security range of 1000 to 2000. Only users with a security level between 1000 and 2000 would have access to the account.

Assign an additional (optional) password to each signature on an check.

Audit Trail

Creates an optional audit report for any or all checking accounts. Reports activity each time a checking account is accessed. Reports date, check number, payee amount, time, account, user name etc.

Graphics

Import any bitmap graphic format for logos and signatures. Visually see the graphic on screen.

OR

Scan images directly into Check Factory using a TWAIN compatible scanner.

Customization

Trans-Micro offers an inexpensive customization service if you need to make changes to our standard form overlays, or you may create your own form overlays using ANY form design, publishing, graphics or word processing program.

Printers

Works with Hewlett Packard PCL5,PCL6 (HP III, IV, 5, 6, 1100,2100,40x0,5x00,8x00)or compatible MICR Laser printers.

Does not work with PCL4 printers (HP Series II 10xx, or 3100series), ink jet, bubble jet, or matrix printers.

Each workstation may use a different type of MICR printer. MICR alignment is now linked to the printer.

Single printer and workstation setup

Ability to use a wide variety of MICR printers at one site.

Requires MICR magnetic toner cartridge for printing checks. (Available from Trans-Micro)
